

## Create Your Own Joan Miró-Inspired Artwork

Joan Miró loved using bright colours, bold lines, and dream-like shapes to express imagination and play. Follow these steps to create your own Miró-style masterpiece!

---

### **Step 1: Start with a Scribble**

Take a black marker or pencil and close your eyes. Draw a big, loopy scribble across your paper. This is your starting point!

### **Step 2: Find Shapes and Forms**

Look closely at your scribble. Can you see any interesting shapes or spaces? Trace around some of them with a black marker to turn them into **organic shapes**—like blobs, ovals, or stars.

### **Step 3: Add Bright Colours**

Now colour in some of the shapes with **bold primary colours**—red, blue, yellow—and leave others white or add dots, stripes, or zigzags.

### **Step 4: Draw Miro-Style Symbols**

Add **Miró-style symbols** around your page. These could be:

- Eyes 
- Stars 
- Moons 
- Ladders 
- Arrows 

Draw them in black so they stand out!

## Step 5: Connect with Lines

Use thin black lines to connect some of your shapes and symbols—like a little story running across the page. Some lines can be straight, others wiggly or spiraled!

## Extra Art Ideas to Explore!

Want to keep creating like Miró? Try one of these fun ideas:

1. **Miró Sculpture:** Use pipe cleaners, clay, and beads to make your own strange Miró-style creature!
2. **Miró Collage:** Cut out bright shapes from coloured paper and glue them to a black background.
3. **Miró Sky Art:** On blue paper, use chalk or oil pastels to make a night-time sky filled with moons, stars, and silly creatures!
