

## Landscape Workso in the Impressionist style of Pissarro

In this this tutorial you can create a painting like this one, but you can include anything you want in your picture

---

### **You'll Need:**

- A4 paper
- Acrylic
- Paintbrushes (small and medium)
- Pencil
- A photo or memory of a place you love outdoors

---

### **Step 1: Sketch the Scene**

Use your pencil to lightly draw a simple landscape – maybe a country path, a farm, or trees and hills. Then add faraway trees. Add details like houses, paths, or people. Add flowers, grass, or fences close to the front.

## Landscape Workso in the Impressionist style of Pissarro

### 🌻 Step 2: Paint the Sky and Background

Paint the sky using soft blues and whites. Use a dabbing motion to blend the clouds gently.

### 🌿 Step 3: Paint the Middle Ground

Use small brushstrokes to make textures and soft shadows.

### 🌼 Step 4: Finish with Foreground Details

Use brighter colours and dots of paint for petals and leaves, just like Pissarro's brush dabs.

### 🌟 Step 5: Final Touches

Look at your painting. Add small dabs of colour to make the whole scene shimmer – try yellows for sunshine, blues for shade, and whites to highlight.
